PROFESSIONAL EXPERIENCE

Software Engineer

SAI Technologies – Jan 2025 – Present

Tech Stack: React.js, Node.js, Express.js, MongoDB, Axios, REST APIs

- Gained hands-on experience working on 3 live projects, contributing to both frontend and backend development.
- Built responsive, user-friendly interfaces using React.js, integrating designs with React Bootstrap and modern UI libraries.
- Integrated backend APIs using Axios, ensuring seamless communication between frontend and server-side logic.
- Collaborated with cross-functional teams in Agile sprints to deliver high-quality, production-ready features.

Freelance Front End Developer

Self-Employed – Nov 2024 – Dec 2024

- Developed two static websites as freelance projects using HTML, CSS, and Bootstrap.
- Created a responsive landing page for a college student portfolio project.
- Built a multi-page static website for Anusha Exports, showcasing product categories and business information.
- Focused on clean design, responsive layouts, and meeting client requirements and timelines.

Frontend Developer - Intern

Byin Tech Solutions Pvt Ltd – Mar 2024 – Sept 2024

- Developed and maintained key screens for the Byzo.in admin panel using React.
- Implemented login authentication with protected routes and role-based authorization.
- Integrated RESTful APIs using RTK Query and tested endpoints via Postman.
- Collaborated within a large development team using a layout-based and outlet-based architecture.
- Contributed to product management features and worked with MongoDB for backend data handling.
